

# ***HAWAII REPEATER FREQUENCY APPLICATION FORM rev 2/16***

- **(no longer updating printed ARRL directory due to vendor requirements)**
- **(NO coordination for less then 5w output as it unnecessarily ties up limited repeater channels, use the SNP channels for low power repeaters)**
- **(you will now be able to list your repeater in the exact city/town as you like)**

OUTPUT      Frequency      \_\_\_\_\_ preference if any  
REPEATER LOCATION (Honolulu) \_\_\_\_\_
