

HAWAII REPEATER FREQUENCY APPLICATION FORM rev 1/24/20

- (no longer updating printed ARRL directory due to vendor wanting payment requirements)
- **NO coordination for less then 5w output if you use the (SNP) shared non-protected for low power repeaters**
- **(you will now be able to list your repeater location in the exact city/town as you like)**
- **NOTE: you must be the licensed repeater operator making this request.**
- **No third party request will be accepted on the behalf of another ham.**
- **If you want any other short info such as a web URL listed I may be able to squeeze it in. Send it under OTHER, if it fits it will be posted.**
- **Initially when I assign a frequency pair, it is on hold and NOT COORDINATED until**
 - **1) you notify me its on the air and**
 - **2) I respond to your email saying its coordinated.**
